50X1-HUM

1. On 17 June 1953, the units from Rehagen left in two columns, each consisting of 8 to 10 radio trucks with cable drums and mast trailers, 30 to 40 trucks, 3 field kitchens and 3 supply trucks. The first column drove to the woods north and south of Saalow, while the other column went toward Zossen to an undetermined destination. On 23 June, the columns returned to Rehagen. 50X1-HUM

1 Since 4 July, an AAA unit has been observed at the barracks installation. Four 37 mm AA guns and 6 x 85-mm AA guns were seen in the barracks yard. 2 On 16 and 17 June, more than 100 tank trucks belonging to the unit at the Schumke Kaserne drove to the woods west of Alexandersdorf. Vehicle

The tank trucks returned on 21 June. The troops at the two barracks installations were still on alert. 3

2. Beginning at 8 a.m. on 17 June, about 30 tank trucks with tank trailers filled with gasoline entered the Schumke Kaserne. Vehicle were identified. Afterwards, the empty tank trucks left the installation. A T-34 tank was emptied in front of the Sperenberg post office. Vehicles observed at the Schumke Kaserne 50X1-HUM

At 7 p.m. on 21 June, a train of 40 boxcars with ammunition went from Jueterbog to Kummersdorf. On 5 July, a troop train with an AAA unit coming from Jueterbog was unloaded at the Schumke Kaserne. The troops left for the barracks installation in Rehagen - Klausdorf. 6 boxcars with billeting equipment, 12 x 76.2-mm AA guns, 1 truck with trailer, and 1 field gun. 2 50X1-HUM

1. Comment. The troops probably belonged to the unidentified signal unit of the GORG which is carried at the barracks installation on the Schumke Lake.

2. Comment. Contingents of the 2nd Gds AAA Div were previously stationed at the Eisenbahnpionier Kaserne in Rehagen. The troop train arrived on 5 July 1953 probably came from Wustrow. 50X1-HUM

3. Comment. A gasoline and lubricants supply column has been continuously observed drawing fuel from side-tracked tank cars at the barracks installation on the Schumke Lake. 50X1-HUM
